OF IOWA COUNTY. The state of the s

Mr. Glies' Second Locture.

We feel our inability to review, much less critieise the eloquent effort of this gifted gentleman the last evening, on the subject of Irish character; we cannot do it justice by our remarks. It is only then to give to those persons who had the misfortune of being absent, some idea of the character and beauty of the lecture, that we offer a few remarks upon it.

It gratified us exceedingly to behold so many of our fellow citizens assembled at the Unitarian Church to listen to a lecture on Irish characters trom an Irishman. Mr. Giles can do ample justice to any subject, but on the present occasion, it was the man in a great many respects pouring out his soul. To the critic, this lecture may not have been written with such a connection, and worked out with such rhetorical ingenuity us the first, but then from the very nature of the subject, the chain had to be broken and uninterrupted, to give room for illustrations upon the different phases of one particular gift, awarded by every people to the Irish, on the liberal plan adopted by your and similar namely, wit. The lecture, though replete with impressive sentences, was calculated to excite the passion of mirth more than any other in the breasts the present state of feeling seems to demand the of the audience, and consequently not likely to pre-ent mode of procedure in church governproduce lasting impressions upon the mind. We were forcibly struck with the beauty of some passages, particularly that one representing the peasant smid the moss grown ruins of some old castle or abbey, with the image of a thousand years filling his mind; and another, describing the hallowed love of home, that burns with such intensity in the bosom of an Irish emigrant. A peculiar feature that characterises this, and indeed all the lectures of Mr. Giles, is the generous, expansive, christain-like view he takes of religion and creeds This spirit, materially different from that generally manifested by the orthodoxy, at which it gives occasionally a withering stab, and it bears the char- the Holy Scriptures. That the fullest success acter of the truest sincerity entertained, as it is, by wish and ardent prayer of Yours, &c. * an individual professing a creed almost the very antithesis of Roman Catholicism. Would that the same feeling inhabited the breasts of every member of the christian religion.

The peculiar manner in which Mr. Giles gave his illustrations of Irish wit and humor, was itresistable: and we came to the conclusion, that none but an Irishman can tell with any effect of Irish witioism. Mr. G. is himself full of humor, and ding an examination of Kidd's vessel as folindeed we felt that the eloquent orator, while expatiating upon the nobler and more pleasing elements of Irish character, was at the same time accurately describing those of his own. His manner in fervent, impressive and energetic; he not only seems to feel, but feels every word he atters; and whether indulging in the mirtuful or pathetic, the andience are satisfied that the man is speaking the sentiments of his own heart. Of this we judge by the hilarity that prevailed while relating his inimitable Irish stories on the one hand, and on the oth- the rough or ore state. er, the impressive silence that obtained, while deheart-rending narrative with which the lecture closed, brought a tear to almost every eye.

one, upon the intellectual elements of Irish character, when developed under the advantages of education and scholastic endowments. Such would be particularly interesting, as Ireland can boast a quantum sufficit of illustrious men among her poets, orators, lawyers and statesmen, that would shed resplendent lustre upon the annals of any nation.

TRISUTE OF RESPECT -On the receipt of intelligence of the death of Gen. Jackson, our minister at London, Mr. Everett, issued an official announcement of the fact, with a request that the memory of the deceased might be honored by the display, at half-mast, of the flags of the American shipping in port, and that his countrymen, throughout Great Britain would join in the marks of respect usually paid to the memory of the deceased | lays. in the United States.,

Our consul at Liverpool, R. Armstrong, too, made a like request; and the Evening Post states, on the authority of a private letter, that every vessel in port, English and foreign, as well as American, complied with the request.

The interest awakened in the minds of the children by the introduction of these books, was partly occasioned by a discovery of the fact, that those who lived hundreds and almost thou. ands of miles from them felt sufficient interest n their welfare, to send books to them; and party from the interesting mat er contained in the books themselves.

of lending a helping hand.

1 am glad to have it in my power to say, that there is a rapidly increasing interest upon the subject in almost every section of this country. And it is but due to your society to say that we are greatly indebted to the prompt efforts of the American Sunday School Union for this in-

crease of interest, That there is a field that may be cultiv ted by your Union, that is beyond the reach of denominational publications, and the efforts of sectarians, I have no question. The state of things in this Northwest country calls especially for the labors of the American Sunday School Union. Our citizens are from almost every portion of the world; they are here, for the most part, with a view to speculation, and so diversified are their sentiments and prejudices, with regard to Church government, that, with many, it is almost impossible to induce action in any benevolent scheme, but by the efforts of those men, and the introduction of those books that proceed societies. I am far from believing that it were better for the world, and the church at large, to do away with sectarian organizations; but while ment, I have no question but that it is an order of Providence, admirably adapted to the wants of the world, to raise up such societies as yours, that can go every where, enter every society, insinure itsef into every heart, and while it stimulates and aids others in the peculiar schere it does a work which none of them, or all united, could ever reform. Then, I am assured, that while you are engaged in a work that has the approval and blessing of God, to the earty ing forward of which you may confidently de vote all your energies, it becomes the duty and interest of all other benevolent associations to cooperate with you in the noble enterprize of training the thousands of the riving generation in our happy country, to a proper observance of the Sabbath, and a correct understanding of

We have seen intimations that the projectors of the digging and pumping operations in the Hudson, near Cauldwell's had been influenced to some extent by Mesmeric revelations, but no particulars of these had reached us. PROLAPSUS UTERI.

THIS troublesome disease is cured by the tise of Hall's Ultero Abluminal Supporter; from the many certificates in its favor we After its successful trial in Gny's hospital, the following certificate was hande to Dr. Hull's London Agent, for public use :-

13 Devenshire Equare, London, Mar. 17, 1838. " Having tried Dr. Hall's Instrument for the care of Prolapsus and Procidentia Uteri, I am glad to express a highly favorable opinion of its utility. In a severe case of entire Proci-dentia, lately under treatment at Guy's Hospital, it was applied with marked success. Its great superiority over the pessary consists in its affording efficient support to the weak ned abduminal integuments, and in its external application, instead of its introduction into the vagina. I quite think it will accomplish a po .manent cure better and more quickly than the pessary. SAMUEL ASHWELL, M. D.

Obstetric Physician, and Lecturer to Gny's, London Sir Asiley Cooper, after the apparatus had seen several months under his inspection, gave the following opinion for publication:— "This apparatus is beautiful for its simplic-

ity; it is an acquisition to practice. The prin-ciple of its operation is quite original and perlect. I shall advise its use, and make use of it in my own practice, in preference to anything | To therks I have seen."
